

# How To Download Mortgage Trading Exchange (MTE)

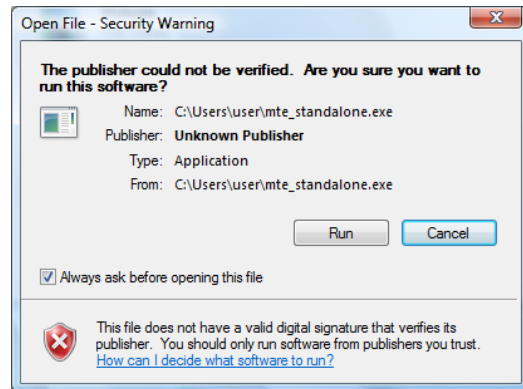

From the link in your email, click on **Register to download MTE** and input your details

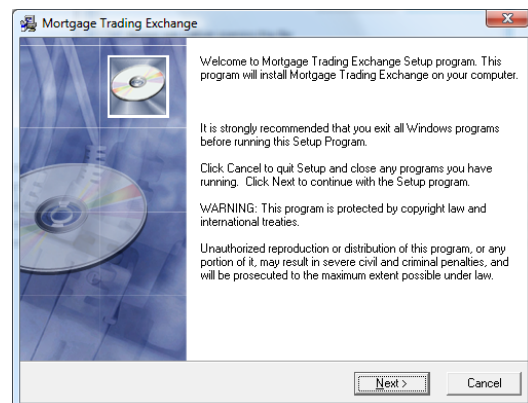

When it asks if you would like to run or save click **Save**, please take note of where the file has been saved to

Once the file has saved you may be prompted to run the application. If not please locate the file **mte\_standalone.exe** and double left click to start the installation. Next click the **Run** button

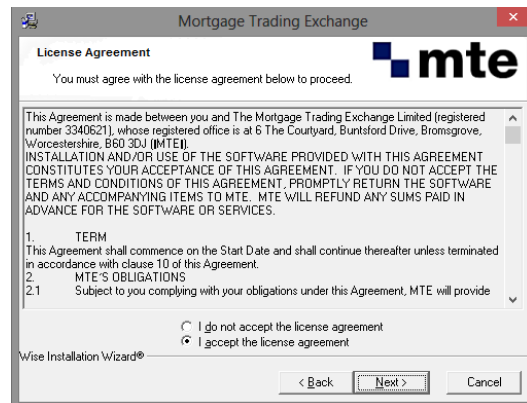

Click the **Next** button

After reading the license agreement select **I accept the license agreement**

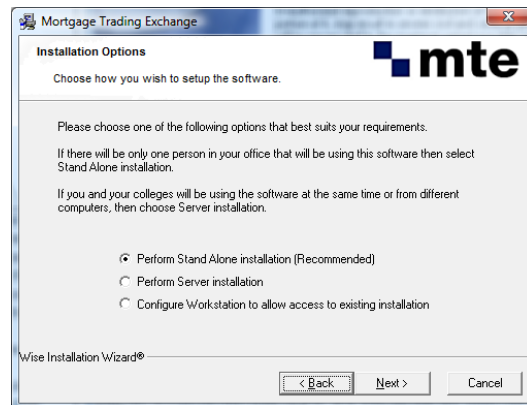

Click the **Next** button

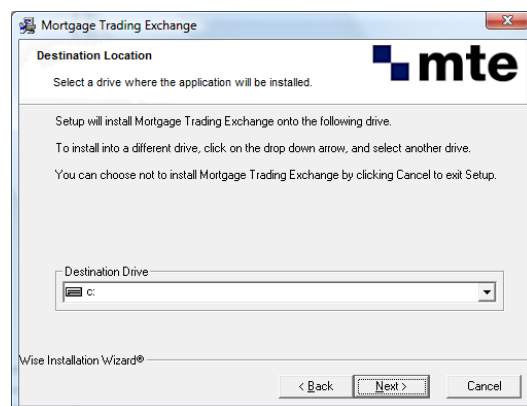

Choose how you want to set up the software and click the **Next** button

Options include:

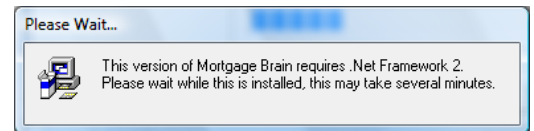

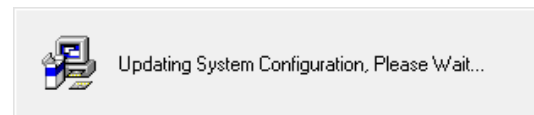

- **Perform Stand Alone installation (Recommended)**
- Perform Server Installation
- Configure Workstation to allow existing installation

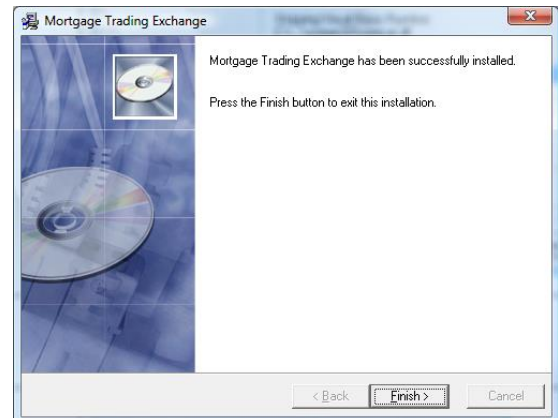

Choose the drive in which you want the software to be installed to and click **Next**

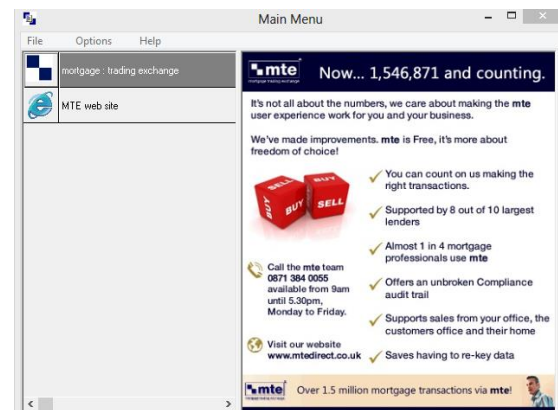

MTE will continue to install. You may notice it Updating System Configuration and .Net Frameworks 2

Once completed it will state the software has been successfully installed. Click **Finish**

Open MTE from the icon on the desktop and select **mortgage: trading exchange** button to take you to the MTE Login screen

Please enter your **User ID** and **Password** and click **Login**. If you do not have these details please click **Register**
